

STEVIEBALES

I feel the best way to shown what I can do in the web design space, is to show what I've already done. Below is a list of active websites I've designed, developed, and even coded:

www.properhijinx.com

mythicgazetteer.com

www.smasingers.org

www.stefanycambra.com

And of course, you can view more of my print, digital, and social media style work on my personal portfolio website at: www.steviebales.com/portfolio
